👤 PROFILE

My name is Mathies Van den Bulcke, I love programming for games and seeing the results of my work in a game. This is why I specifically enjoy gameplay programming. However I also have some experience in engine programming and have various other computer related skills.

📁 PROJECTS

Spread 'Em 🔗

This Game was a game jam submission, which landed me and my 2 teammates second place.

Jointed 🔗

Game we created for our course "Game Projects". Which was made to simulate real world development of games.

DiNES 🔗

A game completely programmed in 6502 assembly for our elective course at DAE.

🧠 SKILLS
